Summary

Dynamic Front-End Developer with 2 years of experience in building responsive and scalable web applications using React.js, Next.js, React Native, JavaScript, TypeScript, and REST APIs. Skilled in developing reusable UI components, optimizing application performance, implementing responsive designs, and collaborating with cross-functional teams to deliver efficient and maintainable solutions.

Experience

Front-End Web Developer

Vedikin Solutions

04/2024 to 04/2026

gandhinagar, India

- Developed and maintained responsive web applications using React.js, Next.js, and TypeScript.
- Created reusable UI components, forms, and user interfaces to enhance application scalability and maintainability.
- Integrated RESTful APIs and managed application state using Redux for efficient data handling.
- Implemented responsive and SEO-friendly user interfaces using Next.js features such as routing, server-side rendering (SSR), and page optimization.
- Utilized TypeScript to improve code quality, maintainability, and type safety across projects.
- Wrote clean, maintainable, and reusable code following industry best practices and coding standards.
- Ensured cross-browser compatibility and responsive design using HTML5, CSS3, JavaScript, Bootstrap, Material UI, and jQuery.
- Collaborated with team members to deliver high-quality features and optimize application performance.

Software Developer Intern

vedikin solutions

07/2023 to 03/2024

gandhinagar, India

- Designed and developed user-friendly web applications for various client projects.
- Utilized version control systems to manage code changes efficiently.
- Developed scripts to automate routine tasks, improving workflow efficiency.
- Collaborated with other developers on design, coding, and debugging tasks.
- Utilized version control systems like Git to manage code changes and collaborate with team members.

Education

B.Tech: Computer Engineering

Gujarat Technological University

Ahmedabad

8.46 CGPA

Professional / Company Projects

- Sitegemini (React.js, Next.js):** Built reusable UI components and integrated APIs for an AI chatbot platform focused on automated customer engagement and responsive user experience.
- Marketing Automation Tool (React.js):** Developed a social media marketing automation platform using React.js that enables users to automatically create and publish posts across LinkedIn, Facebook, Instagram, and Twitter through API integrations. Implemented responsive UI components, post scheduling features, and real-time workflow management for efficient social media handling.
- PMS Aastha Techno (PHP, MySQL):** Created modules for project tracking and employee management in a PHP-based PMS with efficient MySQL data handling.
- n8n Workflow Automation:** Designed automation workflows in n8n to streamline processes and integrate APIs, reducing manual work and errors.

- **OsianSoftcon (HTML, CSS, JavaScript):** Developed responsive, cross-browser company web pages with interactive front-end features and modern UI elements.
- **Karmagrid (HTML, CSS, jQuery):** Implemented static client showcase pages with jQuery interactivity and performance-focused HTML/CSS layout design.

Internship Projects

- **Survey Application (React Native | Android):** Developed a real-time survey application using React Native with REST API integration and optimized UI for smooth Android performance.
- **Family Tree Visualization (React.js):** Built a dynamic family tree web application using recursive rendering logic and React.js for interactive, data-driven visualization.
- **Food Delivery App (React.js):** Built a responsive food delivery web application with real-time order management, user authentication, and modern UI design.
- **Data Mining Tool (Python):** Developed a Python-based data mining tool for analyzing large datasets and extracting meaningful patterns efficiently.

Skills

Frontend: React.js, Next.js, React Native, JavaScript, TypeScript, jQuery

Web Technologies: HTML5, CSS3, Bootstrap, Material UI

Backend & APIs: PHP, RESTful API Integration

Tools & Version Control: Git, N8N

Programming Languages: Python, PHP

Core Skills: State Management, Problem Solving, Team Collaboration, Effective Communication
